Host with Google Drive

About

This tutorial describes how to maintain a copy of MDwiki with Google Drive

Note: This tutorial is incomplete. Please help us by completing it for beginner users: Contribute

Intructions

Step 1: Get Google Drive Account

Step 2: Download `mdwiki.html` into a folder in My Drive

- Rename to index.html if wanted

Step 3: Edit and make your .md files, etc.

- Use your favorite texteditor
- In the same folder :)

Step 4: Share the Folder Publicly

- In the folder, on the top, click the down facing arrow next to the folder name
- Navigate to Share > Share...
- If there is an option at the bottom of the window, press "Advanced"
- Under "Who has Access" press the blue "Change..." link
- Change it to Public on the Web > Can View, and press Save
- Press Done
- On the sidebar, under "Details" there should be a section called "Hosting" and a link under it, that is the URL.
- If it works, you're done!
- Visit a demo site:

Additional Notes

Demo Website

https://2eb7418105f98891e387e056a8f27549f6614e46.googledrive.com/host/0B1y6vebfQnCoTTViMkQyYjRsMWs/#!index.md

Benefits of Google Drive

- HTTPS/SSL/TLS Support
- Very high uptime
- Easy access to edit
- Free!

Cons and Solutions

- Long URL: Fix by getting a domain name and using URL masking
